JOHN M. SWAN; Barron's Safety Lamps,

LIG-RO-INE (Red) FLUID. PATESTED.

THIS Lamp apparently burns without anything to feed it. It has, however, a material which absorbs the liquid and gives it to the flame, partly from the wick, and partly in the form of gas, but so as to produce perfect combustion, and is very economical and safe. It is used without a chimney, and perfectly trimmed, does not smoke or smell; it is therefore especially adapted to the purposes of a "ran about," night, nurse, shop or hotel lamp, or lantern. The cost of broken chimneys, alone, will more than pay the cost of this lamp Every family needs one or more.

Starkville, April 4, 1866.

Editor of Wilkes' Spiritofthe Times:

Sir: The following very strange and anomalous circumstance has just transpired in our community. Mr. Gabriel Ellis, a flourishing dry goods merchant, had frequently remarked that he could sit up three weeks without any material detriment to his health; and that after the expiration of that time he could go to sleep, and sleep without waking until the loss was made up. He was led to believe this fact from experiments on a smaller scale. In the early part of February has smaller scale. In the early part of February has smaller scale. Errors of Youth.

You could not well be subject to a mach more necessive to emplaint, to say nothing of the larger of its running into dysoniery of its running into dysoniery of its running into dysoniery of its property of the larger part of the consequence. It is a grave nistake. No amount of latent health and vigor run the bowels, and the stomach soon exhibits every plainty its. something still more fatal. Many think a duarrhor of little consequence. It is a grave mistake. No amount of latent bruith and vigor can long withstand a constantly loose discharge from the bowels, and the stomach soon exhibits very plathly its sympathy with the disorder—Fortunately, though, there is always a remedy at hamd, and a very linexpensive one, too, in Radway's Ready Redief. No imatter how alarming the diarrhot—no matter if you have an attack even of cholers morbus, a teaspoonful or so of the Ready Relief, taken every hour in a wireglass of sweetened water until case is procured, will be sure to place you on the road to a rapid recovery. A bottle of Radway's Ready Relief, costing 50 cants, is worth more than five dollars' worth of prescriptions from the ablest physician, if your object be to get rid of your diarrhora altogether and not increly to temporarily stape and the operation, lesides this, you will have Ready Relief enough left to care you of a bilious oxide should such an allianch overtake you or a nervous headach, or hysterics, cramps, womiting, pain in the bowels, and so on. Codid anything be more useful and at the same time more economical? Radway's Ready Relief is, in short, quite a family medicine chaest in itself, and prepared as it is of such choice materials, imported from distant parts of the globe. It is really surprising, in this age of high prices, how it can be sold for so comparatively simal as sum; and then its good effects are so immediated if you have a diarrher for inflatine, be you sure that Radway's Ready Relief will promptly be its master.

Sold by druggists.
